## EDUCATION

### Thapar Institute of Engineering & Technology

Bachelor of Engineering in Electronics & Computer Engineering

Patiala, Punjab, India

Sept. 2022 – Present

### Amity International School

All India Senior School Certificate Examination (CBSE) (89.6%)

Gurgaon, Haryana, India

Apr. 2020 – July 2022

## INTERNSHIPS

### Worldspace Consulting

Entrepreneur in Residence Intern

Delhi, India

Jun. 2025 – August 2025

- Identified an operational bottleneck in candidate information processing as the team handled 200-300 resumes/day in unstructured formats.
- Built an internal workflow tool that automatically extracted key profile attributes and centralized candidate data for consulting use.
- Added boolean search so team could quickly retrieve relevant profiles, improving turnaround time.
- Eliminated the need for manual data entry by automating email processing, reducing daily operational workload.

### Xebia IT Architects

Recruitment Intern

Gurgaon, India

Jun. 2024 – Jul. 2024

- Supported end-to-end recruitment by sourcing and screening candidates across multiple job portals, while effectively pitching Xebia's brand and core values to 100+ candidates to attract top talent.
- Conducted market and competitor research across 5+ job portals and analyzed 50+ Glassdoor reviews to gather insights on talent acquisition trends, employer branding, and positioning strategies.

## POSITION OF RESPONSIBILITY

### TEDxTIET | Joint Lead

Aug. 2023 - Present

- Drove end-to-end planning & execution of 3 TEDx conferences, coordinating speaker outreach & logistics, and scaling audience reach to 200+ attendees per conference.
- Directed a 20-member cross-functional team across curation, marketing, partnerships & operations to streamline execution and ensure high-quality event delivery.

### SATURNALIA '24 | Executive Committee Member - Event Management

Sept. 2023 - August 2025

- Planned & delivered 50+ cultural & technical events, improving participant satisfaction by 40% while ensuring seamless execution.
- Coordinated cross-team logistics, hospitality, vendor engagement & budgeting to ensure operational efficiency and smooth on-ground delivery.

## PROJECTS

### CareEase | Business Development, Market Analysis

- Conducted comprehensive market analysis and financial modeling for healthcare technology venture, including revenue projections, cost structure optimization, and ROI calculations across multiple revenue streams.
- Developed detailed business case and pitch materials for healthcare platform startup, incorporating market research findings, competitive benchmarking, and strategic partnership opportunities with hospitals and laboratories.

### Comprehensive Analysis of In-Demand Developer Technologies | Python, Excel, Tableau

- Analyzing developer surveys and job data using Pandas, NumPy, and APIs to identify top in-demand tech skills.
- Building an interactive dashboard in Tableau to visualize programming and tech skill trends.
