BACHELOR OF ENGINEERING: ELECT. & COMPUTER SCIENCE (2022-26) CGPA – 7.19 | TIET, Patiala

CERTIFICATIONS: Advanced Excel Analysis - IBM | SEO Specialization - UC Davis

SKILLS

Languages	Python	HTML/CSS	TypeScript	Javascript		
Agentic AI tools	n8n	Zapier	Make	Antigravity	Claude Code	
Dev. Tools	Git	Github	Google Colab	Tableau	Docker	VS Code
Databases	MySQL	PostgreSQL	MongoDB	Supabase		

PROFESSIONAL EXPERIENCE

SCALER – DIRECTOR’S OFFICE INTERN | JAN. 26 – PRESENT

- Ownership of class ratings cycle across 4 programs, data analysis, instructor and content escalations; **drove a 4% drop in low ratings MTD since March.**
- Built and shipped a live instructor dashboard, architected data pipeline with Supabase, resolved Metabase API quota bottlenecks, and deployed with automated Slack alerts; **cut daily BAU bandwidth by 1.5 hours.**
- Identified correlation between batch handovers and NPS/ratings drop through data analysis; designed and automated the end-to-end handover process using n8n; **reduced incident rate from 7 in 10 cases to 2 in 10.**
- Coordinated across multiple functions with full ownership of BAU operations
- Part of org-level revamp team across all programs, surfaced pain points and drove process changes with senior stakeholders.

WORLDSPACE CONSULTING - ENTREPRENEUR IN RESIDENCE INTERN | JUN. 25 – SEPT. 25

- Identified inefficiencies in resume screening workflows handling 200–300 profiles/day and built a centralized CV parsing platform to streamline candidate processing.
- Developed automated candidate data extraction and search workflows using FastAPI, Next.js, SpaCy, Regex, and Gemini API, achieving 90%+ parsing accuracy.
- Implemented features including bulk CV upload, Boolean search, and email automation to reduce manual effort and improve candidate retrieval turnaround time.

XEBIA IT ARCHITECTS - SUMMER INTERN | JUN. 24 – JUL. 24

- Researched talent trends across 5+ job portals and 50+ reviews, and pitched Xebia’s USP to 100+ candidates to enhance employer branding.

ACADEMIC PROJECTS

ProAlly | Django, React, PostgreSQL

- Developed University’s Research Project Allocation Portal serving students and professors, enabling streamlined management of research postings and document submissions.
- Integrated real-time chat & notifications with Django Channels, boosting efficiency by 30%.

Comprehensive Analysis of In-Demand Developer Technologies | Pandas, Excel, Tableau

- Analysing developer surveys & job data using Pandas, NumPy, & APIs to identify top in-demand tech skills.
- Building an interactive dashboard to visualize programming and tech skill trends.

EXTRACURRICULAR ACTIVITIES

TEDxTIET | Joint Lead

- Organized and led TEDxTIET’s revival by managing a 70-member team to host 3 conferences featuring 15+ speakers and 250+ attendees, overseeing tech, event planning, overall management.
